

SUBSTANCE USE DISORDER CLINICIAN

Goochland Powhatan Community Services announces a full time opening for the position of Substance Use Disorder Clinician.

The Substance Use Disorder Clinician serves as a primary provider of outpatient substance use treatment (individual, group, and family) to adolescents and adults who reside in Goochland and Powhatan counties. The incumbent will provide evidence-based counseling techniques to consumers that have substance use and mental health disorders. This position is responsible for linking consumers to psychiatric services as necessary and for monitoring their use of therapeutic medications. The Substance Use Disorder Clinician provides case management and linkage to other resources that may be appropriate for the consumer, including Withdrawal Management, Residential Treatment, MAT, Department of Social Services, Health Department, County FAPT Team, and Court Services. This position is under the Outpatient Supervisor who will provide oversight for services provided. A Master's degree in a human services field and license eligible status required; license preferred. Ability to work with co-occurring disorders and knowledge with use of electronic health records also preferred.

Goochland Powhatan Community Services Applications will be reviewed for Interviews based on License or eligibility to be licensed as a LCSW, LPC, or LCP and duties that include provision of substance use and mental health counseling with the consumer populations and collaboration with staff and outside providers along with use of Electronic Health Record and Computer Programs. Salary of \$41, 122. Successful candidate must pass a background check and provide status of their professional license. Position closes 4:30 p.m., 11/15/19. EOE.
